

HiWi Position (m/f/d)

Teaching HiWi – Refine your Skills in Teaching Management!

Join our team as a HiWi and help us create a new take on our Production Operations Management course.

Course Content

Production Operations Management (T-MACH-113552) is a Bachelor Mechanical Engineering International course. It covers the basics of the planning and operation of a production plant, such as operations and supply chain management and business management including accounting, investment calculation and legal forms.

What You'll Do

- Participate in teaching activities such as holding tutor courses, giving out homework and supporting students during the course of the lecture
- Help us plan learning activities and improve the course content
- Review case study submissions

What You Bring

- Fluency in written and spoken English
- Motivation to teach fellow students
- Good communication skills and attention to detail

Bonus Points

- Having passed Production Operations Management (T-MACH-113552) or Nachhaltige Produktionswirtschaft (T-MACH-111859) with a good grade
- Having previous experience as tutor

Come help us shape awesome courses — and grow your own skills along the way!

Research Area
Production Operations
Management

Focus

- experimental
- theoretical
- practical
- simulation
- teaching

Field

- Mechanical Engineering
- Mechatronics
- Electrical Engineering
- Computer Science
- Industrial Engineering

Start

Immediately

Workload

20 h/month
